

## The Strangers Guide Volume 2, No. 2

By -

RareBooksClub. Paperback. Book Condition: New. This item is printed on demand. Paperback. 24 pages. Original publisher: Washington, D. C. : National Aeronautics and Space Administration ; Springfield, Va. : National Technical Information Service, distributor, 1990 OCLC Number: ocm28282453 Subject: Astrophysics. Excerpt: . . . et al. 1976; Kawai 1985; Tawara et al. 1985; Tanet al. 1989 ). All three bursts reach a peak immediately counting rate of 1100 counts see ( off scale ). A brief burst-like event ( or oscillation ) immediately after the third burst occurs during the dip in the persistent emission. We have also discovered two bursts ( of type II ) from the Rapid Burster which are triangular. --0.7 sec; the modulation is in shape and which show very strong oscillations with a period of nearly 100 . The frequency of these oscillations is very similar to the QPO observed in type II bursts ( SteUa et al. 1988 ), and we suspect that the two are related. Three type II bursts from the Rapid Burster each followed by distinct oscillations in the persistent emission were recently discovered by us. The 25 sec period of the oscillations decreases as the oscillations die out. We have examined bursts from 1636-53 and found there is a strong correlation between the burst duration and the spectral state ( location in the color-color diagram ); there is also a strong correlation between the spectral state...

### Reviews

*Excellent electronic book and valuable one. Better than never, though I am quite late in starting to read this one. I am very easily able to get a delight of studying a written book.*
