Climate Change: Tipping Points Tipping Points are in many ways, influenced by media. This just released, ground-breaking book by Dr Philip Gordon, Ph. D details the Climate Change issue which is analyzed on the basis of Tipping Point Theory Attributes and Characteristics. Currently, media contagiousness and stickiness are influencing the Climate Change epidemic and soon the dramatic moment in time where the culmination of planet impacts will be irreversible, which are characterized by the phenomenon known as the Tipping Point. As the issue of Climate Change is still evolving, Dr Gordon provides a methodology and parameters for analyzing and predicting our planets most pressing global issue. The challenge is to harness and focus our global media agendas and priorities before its too late. Dr Philip Gordon, Ph. D was awarded his doctorate (with honors) from the Centre dEtudes Diplomatiques et Strategieques (CEDS) Paris, France and graduated with his masters while on a full-fellowship from Johns Hopkins University, Baltimore, Maryland. He currently lives in Burgundy, France with his wife and two sons. Peer Review Comments: The genius of the formulation of Climate Change Tipping Point Theory is that it takes explicit account of the role of social media and the internet at facilitating bifurcations and promoting dynamical instability. In effect, we have trimmed a few feet of tail off the kite. As a reader, I was informed and educated as to the factors which conspire to influence stability instability in complex social systemsthe book does a good job of making sense of past bifurcations and dynamical instabilities, namely political instability, our perception of global climate changemy compliments on a truly insightful book. - Prof. Dr. (med.) Peter S....
