Science Myths Unmasked Exposing misconceptions and counterfeits forged by bad science books Vol.1 Earth and Life Science

By David Isaac Rudel

Gadflower Press. Paperback. Book Condition: New. Paperback. 162 pages. Dimensions: 8.3in. x 5.8in. x 0.3in. A science curriculum editor - and veteran teacher - exposes myths and misconceptions perpetuated by irresponsible science textbooks and offers clear explanations to defrauded teachers and students. In the fiery politics surrounding the struggles in modern education, one crucial element has eluded criticism: Our day-to-day source materials. People have placed the blame on teachers, students, parents, administrators, funding, and education standards, but little attention has been given to the textbooks on which teachers and students so heavily rely. Teachers and students have reasonable expectation that the state-adopted textbooks are dependable tools they can rely on for accurate accounts of scientific explanations, theories, and facts - yet closer examination has shown that this is decidedly not the case. This is what Richard P. Feynman, winner of the 1965 Nobel Prize in physics, had to say about the textbooks submitted to California for state adoption: They said things that were useless, mixed-up, ambiguous, confusing, and partially incorrect. How anybody can learn science from these books, I don't know, because it's not science. Have you been misled? Take a short quiz to see: 1. Seatbelt buckles can burn you...
