

Newton: A Very Short Introduction

Filesize: 5 MB

Reviews

Excellent electronic book and helpful one. It usually does not cost a lot of. I am quickly will get a pleasure of reading through a written publication.

(Bernardo Feeney Jr.)

Oxford University Press. Paperback. Book Condition: New. Paperback. 144 pages. Dimensions: 6.6in. x 4.3in. x 0.5in. Newtons reputation was the subject of intense debate long before his death in 1727. While alive, numerous opponents sought to topple his theories, and his views on religion were considered by many to be unorthodox. For the vast majority of scholars, however, his groundbreaking approach to science overrode all else. This book makes use of previously unpublished private writings and manuscript sources to present a concise exploration of the internal springs of Newtons complex character. Robert Iliffe describes Newtons studies in fields ranging from alchemy, physics, and mathematics, as well as his controversial religious beliefs, and concludes with a consideration of the legacy left after his demise. Newton will gratify readers who are interested in the real history behind one of the worlds most legendary scientists. This item ships from multiple locations. Your book may arrive from Roseburg,OR, La Vergne,TN. Paperback.
